

# MYVOLUTION®

## A NEW DIMENSION OF BEAUTY

### INNOVATIVE BEAUTY APPROACH:

Inspired by the knowledge of a digital image expert, MYVolution® focuses on specific facial areas to enhance the beauty of each one of us. MYVolution® turns the **2D image** we post on social networks into **our real 3D image**.

### EASY FACIAL ASSESSMENT:

Simple identification of facial shapes: triangular, round and rectangular.

### M-Y-V APPROACH:

Each facial shape has got different areas of shadows and light which correspond to specific areas identified by 3 letters: **M-Y-V**.  
By modifying the **volume** in these areas, **light and shadows** become **more defined**.

### SHOW YOUR 3D BEAUTY:

MYVolution™ releases your enhanced authentic beauty, by volumizing it with the right quantity of **hyaluronic acid**.

## IT'S THE BEAUTYGRAMMERS ERA

### BEAUTY IS NOW IN THE EYE OF INSTAGRAM

Today **millennials care more about the way they look on social networks or apps: they post on average 10 selfies every 10 seconds on Instagram.**

Who are those people?

**50.3%** of Instagram users worldwide claim to be women:

- **15%** are 18-24 yrs.
- **15%** are 25-35 yrs.<sup>1</sup>

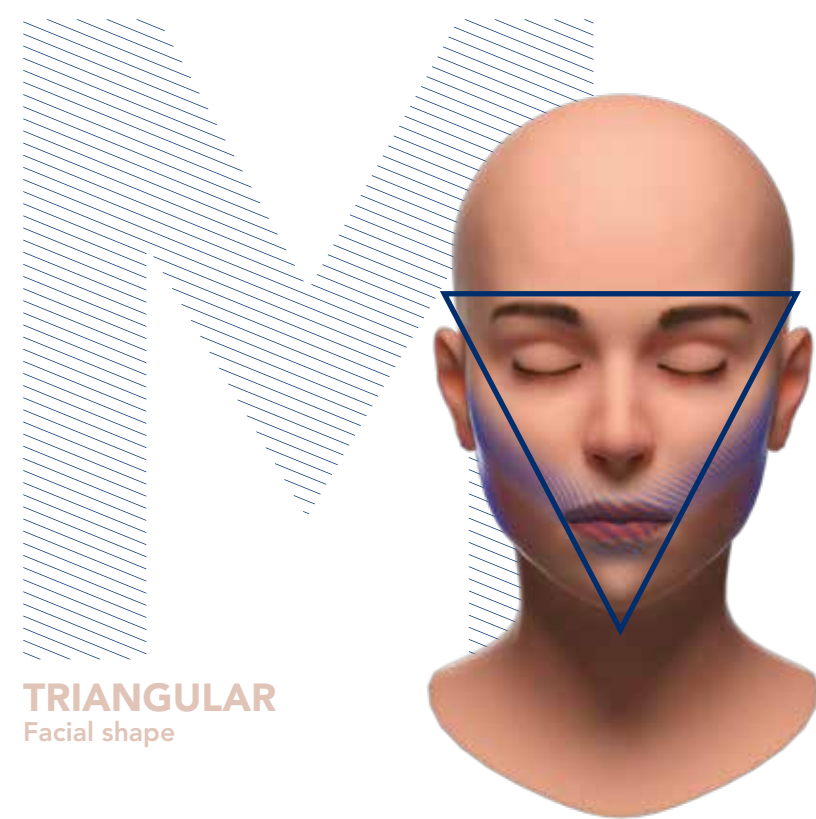

The desire to emulate the flawless image projected by photo filters is creating an increased demand for medical aesthetic treatments.

We are now passing from being beautiful to feeling **beYOUtiful**: women want to enhance their authentic beauty without changing their appearance.
